(a) all 435 feasible level-1 states, 4×4 grid
district sizes (8, 8) (70 states)
district sizes (4, 4, 8) (284 states)
district sizes (4, 4, 4, 4) (81 states)
spanning-tree law
uniform law
sampled frequency (three chains pooled)
spanning-tree law
(b) mass by district-size pattern
sampled
uniform law
spanning-tree law
probability mass of the pattern
sizes (8, 8)
sizes (4, 4, 8)
sizes (4, 4, 4, 4)
